

Below you will find an overview of all costs for your trip.

The overview will give you realistic insight in all costs related to your trip. It therefore includes cost you will not normally find in other travel packages (fuel, meals, camping fees, ferries etc) but which will have to be paid nevertheless. The overview is therefore a good platform from which to base your trip budget (although it may appear to be a more expensive trip than anticipated based on fly&drive packages most travel agents sell).

Important – you will not pay the trip price per person to Nature Trek Canada.

We mention this explicitly because many travelers think that proceeding with arrangements for your trip is tied to the charges that appear in the budget. That is not how it works though - we charge a one-time fee of \$Can 350 (plus postage and printing costs approximately \$Can 35 per travel guide), including all services. If you like us to do reservations and additional bookings we will make those free of charge. But you can also do those yourself. The budget layout will show you the following:

- **Column 1 – Flights & local transportation** are essential and standard trip components. In consultation with you we can make reservations and bookings (but you are free to do so yourself as well).
- **Column 2 - Accommodation & ferries, trains and excursions** are trip components you still have to decide about.
- **Column 3 - Extra costs** which you will pay on location.

Please keep in mind that exchange rates may fluctuate which can account for differences between this budget and those at the time a reservation is made. Bookings made from Europe such as flights, camper- and car rentals are generally not subject to currency fluctuations. Budget is prepared in GBP but payments will have to be made in \$Can while traveling

* Website rates. As agents we can access touroperator rates which are sometimes cheaper.

** Reservations can be made by us in consultation with you (no charge) or you can make bookings yourself.

*** Obviously you decide how often you dine out. This may alter meal expenditures.

Costs in **blue** and **green** are usually not included in standard fly&drive packages. Obviously they are a part of your vacation.
